

Kids' Place News — Did you know?

Kids' Place continues to grow and change! There have been many positive developments in the last few years. We would like to keep you abreast of the new polices and how KP operates now.

- We are excited to be welcoming 2 new babies in the course of the next few months, with a third on the way! We are making a special infant room for them next to the kitchen by moving the office to a former storage closet at the Rec, allowing us to better operate a multi-age facility. See photo below!
- We currently have 7 families under contract (meaning they are financially responsible for their reserved spots), and average 5 children a day.
- All KP staff are island residents and almost all the parents of children at KP volunteer on Boards or work for island businesses.
- We are lucky that Beth Putnam is a certified CPR and First Aid trainer, and the staff is in the process of being trained, or retrained, in adult and child CPR as well as First Aid for teachers.
- We have new rates for residents, non-residents and non-contracted users (otherwise known as drop-in's — only admitted if there are no contracted users scheduled).
- We are so grateful for our wonderful volunteers! They delight the children, assist the staff and enhance the program! Let us know if you would like to join them!
