## Freight Shed Repairs

CTC is organizing a project to repair and paint the Cousins Island Freight Shed (sometimes called “Warming Shed”).

We will supply the materials and would like to invite the community to help in the repairs. We want to do this project this spring, so we hope we are able to attract volunteers to help in April and early May. Work would be scraping, painted and light carpentry.

If you are interested in helping out, please contact Carol or Martha for more information. Thanks!
