

# Chebeague Pre-K- Transitional K News – October 2, 2009

Our themes this past week have been apples, snails, and colors. Our apple activities culminated in printing apple patterns that now adorn our classroom wall.

We have pet land snails in our classroom and have been observing their body parts. Ask the children where the eyes are located (*on the end of the 2 top tentacles - in case you didn't know*).

On Tuesday we talked about fire drills as I thought we would have one. Instead we were all surprised on Thursday with our first drill.

Following are some of the lessons, which were presented to all either at circle or individually. Other lessons are given individually based on the child's interest and/or readiness.
